Professional Introduction:
Experienced MERN Stack Developer with over 5 years of expertise in HTML5, CSS3, JavaScript, React.js, Node.js, Express.js, and Next.js. Demonstrated success in responsive design, cross-browser compatibility, and performance optimization. Enthusiastic about staying current with emerging technologies, including Web 3.0, to continuously enhance development practices and deliver cutting-edge solutions.

EXPERIENCE

MERN STACK DEVELOPER   Oct 2022 - Present
Green Group, Lahore
- **JWT Token Management:** Implemented secure JWT token management, leveraging React-Hook
- **REST API Development:** Designed and developed robust RESTful APIs using Node.js, ensuring efficient and scalable server-side logic.
- **Client Collaboration:** Collaborated closely with clients, utilizing tools like Figma, XD, PS, and Invasion to translate requirements into system designs.
- **State Management Expertise:** Utilized Middleware, Redux Toolkit, Redux-Saga, Context API, and Redux-Thunk to seamlessly retrieve and store data from the Backend, along with performing RESTFUL services.
- **Responsive Styling:** Applied CSS Box Model, employed styled components, CSS preprocessor SASS, and effectively used mixins, functions, grid-area concepts, and flexbox for creating fluid-responsive applications.
- **Server Configuration (Digital Ocean):** Configured servers on Digital Ocean, implementing server-side optimizations and security measures to ensure reliable and performant application hosting.
- **Version Control and Testing:** Employed Git-based version control systems (Github, Bitbucket, GitLab) for collaborative development.

JAVASCRIPT DEVELOPER   Dec 2020 - Sep 2022
BizSoft Technologies, Lahore
- **Client Collaboration:** Worked closely with clients to establish detailed specifications and system designs, utilizing tools like Figma, Adobe XD, Photoshop, and InVision for effective UX collaboration.
- **Responsive Web Design:** Implemented advanced CSS techniques, including the CSS Box Model, styled-components, and CSS preprocessor SASS. Effectively used mixins, functions, grid-area concepts, and flexbox to create fluid and responsive web applications.
- **Team Collaboration:** Worked closely with cross-functional teams, including designers and senior developers, to ensure project goals were met and delivered on time.
- **Version Control:** Used GitHub for version control and tracking, facilitating collaborative development and maintaining code quality.

Web DEVELOPER   May 2018 - Nov 2020
SUPERIOR INFORMATION SYSTEMS, INC, Lahore
- **WordPress Customization:** Customized WordPress themes and plugins to meet specific client needs, enhancing website functionality, performance, and user engagement.
- **React.js Development:** Implemented innovative website solutions as a React.js developer, building reusable components with styled-components for improved cross-platform optimization and site performance.
- **Responsive Design:** Applied advanced CSS techniques, including the CSS Box Model, flexbox, and grid systems, to create responsive and visually appealing websites.
- **Client Collaboration:** Worked closely with clients and senior developers to gather requirements and translate them into technical specifications, ensuring timely and accurate project delivery.
